

eBeam Interact 1.3

Spring 2007

Screen Recording with Audio

Record everything that happens on your screen along with your voice and save as a movie file.

Choose the Recorder tool from the Screen Capture sub-menu.

Screen Recording with Audio

Choose which part of the screen you would like to record: the whole desktop, a portion of the desktop or a single window.

Screen Recording with Audio

Use the Record Options menu to setup your recording any way you want.

Screen Recording with Audio

Tool Palette Sub-Menus

Customize the Interact palettes with the tools you use most.

Click and hold the Pointer to access the Shared Meeting Pointer.

Tool Palette Sub-Menus

Click and hold the Onscreen Keyboard to access the Handwriting Recognition Toggle.

Tool Palette Sub-Menus

Click Screen Capture and choose either New Page or Screen Recording.

Tool Palette Sub-Menus

Click and hold the Text Box to access the Shapes Tool.

Tool Palette Sub-Menus

Customizable Colors

Choose your favorite color from the unlimited
Windows™ color palette

Double-click a color on the outer ring of the palette and you can replace it with any color from the Windows color palette.

Customizable Colors

Click and hold down the Text Box button to access the Shapes Tool.

Shapes Tool

Select the shape, color, and line thickness.

Shapes Tool

eBeam Chat

Communicate with fellow meeting participants using Scrapbook's built-in chat feature. Send messages to one or all and make sure that everyone is on the same page.
