Professional 4800 Colour Quality and 1200 x 1200 dpi giving you sharp, vivid, high quality results

Versatile Full print, fax, copy and scan functionality, customise to meet the specific needs of your business

Multifunction Colour Laser

LEXMARKTM

Easily streamlines even the biggest workload

The Lexmark X782e is a sophisticated A4 multifunction colour laser printer that takes on the mono only MFPs for performance and low running costs. The Lexmark X782e is ideal for handling the diverse demands of even the busiest workgroup. With fast colour copy and print speeds of up to 33 colour and 38 mono pages per minute you can churn through the work faster and more affordably than ever before.

Keeping the running costs down, and ensuring the productivity is up

In addition to ensuring you keep the costs of printing in colour to a minimum, Lexmark has also focused on making sure productivity is maximised. The Lexmark X782e delivers full colour print, copy, fax and scan functionality right out of the box. Plus, Lexmark's Right Fit range of product options gives you the ability to customise the Lexmark X782e to meet the specific requirements of every individual workgroup in your organisation. You can choose from document stapling, high capacity envelope feeding or separated output for individual users to minimise wastage (a key way of ensuring your colour costs don't get out of control). And, the Lexmark X782e supports a range of industry based applications including printing on UV and water resistant media (ideal for outdoor or 'wet area' signage and mapping), long-life vinyl labels for retail environments, multi-part forms, pharmaceutical labels and for medical imaging purposes.

Now showing on the big screen

Boasting Lexmark's unique e-Task colour touch screen, the Lexmark X782e makes complex processes easy, even for first-timers. With a large, common colour screen across all of Lexmark's workgroup colour and mono MFPs, familiarity is instantaneous, reducing training time and increasing productivity. The intuitive and fully customisable touch screen is your gateway to greater business efficiency. Customise your screen to access electronic forms, application specific icons or create short cuts to simplify and automate complex business processes. Whether embedded in the device or server-based, these solutions help you print less, lower costs, eliminate waste and reduce transaction times dramatically.

Security - Keeping your critical information safe

The Lexmark X782e includes specially designed security features to ensure your critical information remains secure. Your printer network can be managed comprehensively and securely via Lexmark's MarkVision software so you can rest assured all your valuable network data is locked up tight. This robust system is designed for enterprise-level security, including disk wiping, encryption and physical cable-lock protection. Even with the long list of advanced security features, the Lexmark X782e is still user-friendly, with users only requiring standard network information to log-in when security is enabled. These flexible security features ensure your sensitive documents always stay in the right hands.

No worries – colour costs are under control!

The benefits of colour are widely recognised, however until now, they have come at price. However, the Lexmark X782e was designed to put you in total control of colour costs. In addition to high-yield cartridges and a low cost per page, it comes equipped with Lexmark's unique ColorCare technology, a complete range of colour-cost-control tools. This includes convenient budget-friendly features, such as user-specific colour-print-permission settings, which let you limit which users can print in colour based on their specific job functions.

Peace of mind

At Lexmark, the goal is to ensure you achieve maximum productivity, and minimum downtime and cost of ownership. The Lexmark X782e is supported by Lexmark's comprehensive on-site warranty. In addition to the standard on-site support, you can choose from a wide range of flexible service options built specifically to meet your businesses unique needs.

Technical Specifications

Print technology	Colour Laser
Print speed	Mono: 38 ppm, Colour: 33 ppm
Time to first print	Black: <11 seconds, Colour: 13 seconds
Copy speed	Up to 38 ppm
Processor	800 MHz
Memory	Standard: 768 MB, Maximum: 768 MB
Resolution	Black: 1200 x 1200 dpi, 2400 Colour Quality
Duty cycle	120,000 pages per month
Emulation	PostScript 3, PCL 6, PPDS, PDF 1.5
Operating Systems Supported	Microsoft Windows: 2000, NT, ME, XP, Server 2003, 98 2nd Edition, XP Professional x64, Microsoft Vista Novell Netware: 3.2, 4.2, 5.x and 6.x UNIX: Sun Solaris 7, 8, 9, 10, HP-UX 11.00, 11.11, IBM AIX 5.1, 5.2, 5.3 Linux: Red Hat Linux 7.3, 8.0, 9.0, other systems Mac OS: 9.x, X IBM: AS/400 Systems
Paper Input Capacity	1,500 sheets + 100 sheet MPF
Paper Output Capacity	Standard: 250 pages, Maximum: 900 pages, with optional output options
Copy/Fax/Scan (ADF) Paper input capacity	Up to 50 pages
Finishing Option	5-Bin Mailbox, Lexmark StapleSmart Finisher, Output Expander
Number of Paper Inputs	Standard: 3, Maximum: 4
Media Supported	Transparencies, Glossy Paper, Labels, Plain Paper, Envelopes, Card Stock
Media Sizes Supported	A4, A5, Executive, Folio, JIS-B5, Legal, Letter, Universal, Envelope, 10, B5, DL
