

Dahle 20822EC Department Shredder

Professional Series

20822EC

- 1/2" x 3/16" Shred Size
- 10/15 Sheet Capacity
- Security Level 4
- 2 Hp Motor
- Fully Automatic Features

Known for its power and waste capacity, this Dahle Department Shredder provides a practical solution for accommodating the shredding needs of even the busiest offices. This machine can continually shred large quantities of paper for extended periods of time and produce a very small particle size for greater document security. Its attractive design and large waste bin make this a nice addition to any large office, copy room or communications center.

The Dahle 20822EC has a 16" feed opening to easily accommodate letter, legal and wide computer paper. It has a maximum sheet capacity of 10/15 sheets at a time and features a large capacity waste bin capable of holding 35 gallons of shredded material. In order

to provide slip free power to the cutting cylinders, a steel chain and gears connect the two components and provide maximum shredding capacity. Removing staples and paper clips are a thing of the past. Dahle shredders can easily accommodate these items without harming the machine and saving you time in the process.

Properly oiling this Department Shredder is the key to maintaining optimal performance. Due to its function, this Department Shredder will be placed in a common area and have multiple users. As a smart alternative of ensuring your machine receives proper oil, we recommend adding an Automatic oiler.

Large 35 Gallon waste compartment requires less frequent bag changes.

Chain-driven cutting mechanism provides slip free power for maximum throughput.

DAHLE 20822EC SPECIFICATIONS

Model	Feed Width	Capacity #20 / #16	Security Level	Shred Size	Motor	Speed ft / min	Automatic Features on / off bag full off reverse	Auto Oiler Available	dB Level	Waste Volume	Waste Bag/Box	Dimensions h x w x d	Shipping Weight
