PLUS

Automatic cropping and correction

When you take a picture with the MTG Sync App, it automatically detects the edges of the board. Simply confirm the best detected option and the handwritten notes are cropped and corrected for keystone distortion. You are provided with a crisp image in a portable file size for easy sharing.

Organize and share

The saved data can be organized in folders, sent via e-mail, sent to Evernote or Dropbox and can be saved to the device's memory.

Choose how to share your notes.

Organize your notes in folders.

Template sheet for easy organization

The template sheet for the MTG Sync allows you to enter pertinent meeting information in a standard format – Title, Date, etc. When the MTG Sync App is used to take a snapshot of handwritten notes, the information can be transcribed and used to sort and organize the notes, making them easy to find and browse. The template sheet can be easily attached or removed via its magnetic backing.

You can choose to view only the template information in thumbnail format for easy browsing.

Detail display showing both the notes and the template information.
