

## technical specifications

### Writing surfaces (ēno interactive and dry-erase)

- e<sup>3</sup> environmental ceramicsteel

### Power requirements

- No power required for the ēno flex board
- Stylus requires one AAA battery

### Educational software (included)

- RM Easiteach<sup>®</sup> or WizTeach<sup>®</sup>

### Accessories (included)

- Bluetooth<sup>®</sup> stylus
- Moveable magnetic icon strip
- Bluetooth receiver for Windows<sup>®</sup> or Macintosh<sup>®</sup> (USB interface)
- One AAA battery
- PolyVision driver
- Two replacement stylus tips

### Environmental certifications

- MBDC Cradle to Cradle Silver
- SCS Indoor Advantage Gold
- RoHS
- Qualifies for LEED points

### Recommended computer requirements

Microsoft<sup>®</sup> Windows

- Pentium<sup>®</sup> processor
- 512MB RAM
- XP, Tablet XP service pack 2 or above, or Vista<sup>®</sup>
- One available USB port

### Apple<sup>®</sup> Macintosh<sup>®</sup>

- PowerPC or Intel microprocessor
- 512MB RAM
- System software OS X 10.3.9 or higher
- One available USB port

### Bluetooth stack support

ēno flex supports the following Bluetooth stacks:

- Windows: Microsoft, Toshiba, Blue Soleil<sup>™</sup>, Widcomm<sup>®</sup> Broadcom<sup>®</sup>
- Macintosh: All Apple stacks

### Warranty

Forever Warranty on the e<sup>3</sup> environmental ceramicsteel surface; ten-year warranty on the trim, mounts, etc.; two-year warranty on all other components. For more information, see the ēno interactive whiteboard user guide.

eVision<sup>™</sup> PolyVision is committed to move toward sustainability in all areas of environmental stewardship—to protect people, replenish natural resources, and restore the communities in which we work and live.

bring learning to life<sup>™</sup>

## Interactivity... spec it in from the start

ēno flex is the first multi-surface solution to integrate traditional tack and/or dry-erase surfaces with PolyVision's ēno interactive whiteboard—all without wires or cables. Ideal for new construction or school renovations, ēno flex is available in eight configurations, providing districts the flexibility to choose the board to fit classroom requirements without compromising wall space, aesthetics or teaching style. With one, multi-functional board from one supplier, ēno flex can be specified from the start of any classroom building project.

### Features

**Lowest total cost of ownership**—ēno flex combines the simplicity of a traditional surface with interactive performance into one board. With a Forever Warranty™ on the surface and no cords, cables or high installation costs, ēno flex gives schools the longest lasting, most comprehensive interactive classroom solution on the market.

**A single installation meets many classroom and budgetary demands**—Multiple configuration options eliminate boards with too much or too little usable space. And, since ēno flex combines interactivity with traditional surfaces, schools can take advantage of funding available for major renovation projects or Division 10 new school construction.

**Supports green building initiatives and qualifies for LEED® points**—The e<sup>3</sup> environmental ceramicsteel™ ēno and dry-erase surfaces are Cradle-to-Cradle<sup>SM</sup> Silver and SCS Indoor Advantage Gold® certified, contain no volatile organic compounds (VOCs) and are recyclable.

**Simplicity from start to finish**—All ēno flex components ship in a manageable 8' box from one supplier. Only one, easy-to-use multifunctional board to install.

"With a single, cable-free board, ēno flex solves my interactive, dry-erase and tackable surface needs."

## About ēno

1

**Write on ēno all day long.**  
Erase with ease without damaging the surface.

traditional dry-erase

2

**Give students manipulatives for time-tested problem-solving.**  
It's OK—ēno is tougher than magnets

magnetic ceramicsteel

3

**Add a stylus, computer and projector.**  
And ēno is instantly interactive

interactive performance

## Why PolyVision

PolyVision is building on our history with chalkboards, whiteboards and the best writing surfaces since 1954. We've integrated these time-tested tools with innovative technology to meet the challenges of today's 21st century classroom, as well as the design applications of architects. Our decades of commitment to excellence are led by sustainable guiding principles in every facet of our business practices.
