Audience Response System

QRF300

What is QClick?

QClick is the most powerful and cost effective Interactive Wireless Audience Response System on the market. It can be used in traditional classroom settings, group meetings, or wherever instant feedback is desired.

The QClick system completely integrates into Microsoft PowerPoint, making it both easy to learn and fun to use. It enriches your presentations and classroom curricula by encouraging participation. With QClick's interactive PowerPoint based software and wireless audience response pads given to each participant, real-time feedback can be electronically collected at the simple click of a button.

What can QClick do for you?

- QClick ensures that your professional presentation is more interesting, entertaining, interactive and informative.

- Instructors and presenters can display questions, surveys, opinion polls and games that allow everyone in the audience to select a response via their wireless response pads and transmit the data immediately to the presenter.

- Critical information can be accurately and efficiently gathered, ranked and displayed in a matter of seconds.
-
- QClick integrates 100% into PowerPoint giving you the capability to author, deliver, assess and report without ever leaving PowerPoint.

- Conduct on the spot assessments or gauge the opinion of each participant at any point during your presentation or training session.

- QClick is capable of supporting large audiences.

- Wireless hand-held Instructor Remote allows the presenter to conduct exams while maintaining full classroom mobility.

QClick Hardware Components

Instructor Remote

Add convenience and style to your presentations with this all-in-one wireless presentation remote. Used by the instructor to control the course of activities, the instructor remote presents PowerPoint slides, and doubles as a laser pointer.

Dimension:
4 1/8" × 1 15/16" × 5/8".

LED Indicator for power status and response confirmation.
