

Dance to Advance

Students dance their way to greater learning

RM Dance to Advance is the new fun and easy-to-use dance mat activity software for use across the curriculum. Using visual, kinesthetic and auditory stimuli, **RM Dance to Advance** is an ideal way to challenge and test students' knowledge, while simultaneously supporting Michelle Obama's campaign for healthier lifestyles for our children.

With **RM Dance to Advance**, students will dance their way to greater understanding and concept retention. Select from the dozens of included ready-made activities for Math, Science, ELA and Social Studies. Create, edit and customize your own dance mat activities on any subject or topic using text, sound or pictures.

The captivating game format features 1 or 2 player capability and allows for single, dual (stepping on 2 answers at once) or sequential (A then B then C) responses. **RM Dance to Advance** allows students to personalize their learning experience by selecting from a range of characters, music and background scenes. Even the most reluctant learner will want to join in the fun!

RM Dance to Advance comes with two Dance Mats. Dance Mats are mats with pressure-sensitive pads that act as switches, sending signals to the computer. These signals interact with the **RM Dance to Advance** software, rewarding the player for the correct choices.
