GET ON YOUR FEET! IT'S TIME TO LEARN!

INTRODUCING!

RM Easiteach

Dance Mat – *Dance to Learn*

A new interactive Content Pack to engage and motivate your students!

Learning isn't a passive activity for today's students. With the new RM Easiteach Dance Mat content pack your students will dance their way to greater understanding and concept retention in a whole range of subjects.

The RM Easiteach Dance Mat works like a keyboard, sending signals to the computer it is connected to when a student steps on the mat. For instance, students are instructed to add to one thousand. They are shown the number 454 on an interactive white board or computer screen and then jump on the numbers five, four and six (546) on their Dance Mats. Each Dance Mat question gets progressively more challenging, making Dance Mat activities fun, fast-paced and highly educational.

DANCE TO LEARN IN ANY SUBJECT AREA

There are over 150 ready-to-use activities to get you started with RM Easiteach Dance Mat, covering curriculum areas such as,

- **Math:** Ordering, counting, fractions, place value, multiples, properties of shapes, multiplication tables
- **English Language Arts:** Word definitions, homophones, plurals, tenses, parts of speech, pre- and suffixes, rhymes, spelling
- **Science:** Classifying, changing states, units, nutrition, food chains, forces, materials, vocabulary
- **Geography:** Continents, countries, cities, compass directions, geographical vocabulary
- **History:** Historical period, chronology, evidence.
- **Foreign Languages:** Numbers, phrases, spelling, gender, topic vocabulary

You can also create your own lessons or modify existing ones to fit the specific needs of your students. The more students participate in their own learning, the more successful they are. Dance Mat is an exciting new way to engage and motivate students.

DANCE MAT BRINGS FUN AND EXCITEMENT TO ANY LESSON

Dance Mat activities give students a change of pace and reenergize the classroom.

- Use Dance Mat to review homework or summarize key points at the end of a lesson.
- Set up activities to introduce new information or to give students the chance to explore a topic, searching for the correct answer and building on knowledge gained from previous questions.
- Involve students even more by letting them develop their own Dance Mat activities using the built in templates.
- Dance Mat is the perfect tool for helping kinesthetic learners understand and retain new concepts.

GET MOVING AND GET YOUR DANCE MAT CONTENT PACK TODAY!

$350.00 for a single user license
Includes an RM Easiteach Dance Mat, RM Easiteach v3.3 and the Dance Mat Content Pack

Your Dance Mat Content Pack comes ready-to-dance but the activities and games in the Content Pack are equally effective without the use of a Dance Mat. Students can answer questions using a mouse, wireless pad or interactive white board. Depending on the number of Dance Mats you have in the classroom, students not dancing can provide encouragement and support to the dancer or you can even have them create their own paper Dance Mats and follow along with the activities at their desks. Even when students aren't dancing, Dance Mat engages the whole classroom and makes each student an active participant in learning.
