Why Dahle?

When cutting problems arise, Dahle offers Cutting Solutions. From self-sharpening cutting blades to self-feeding pencil sharpeners, Dahle designs innovative products that take the industry by storm. This product catalog features a wide range of cutting and office products that exceed even the most serious demands for Precision - Quality - Innovation.

PRECISION

Whether you are interested in trimming a single sheet of paper or a stack of 700, Dahle paper cutters will give you the results you desire. Dahle blades have a self-sharpening precision graduated edge which gives you the ability shave the smallest piece from the edge of your paper. These results are achieved from over 75 years of cutting and sharpening experience.

QUALITY

Engineered and developed by Dahle, our products are factory tested before release and designed to meet the strictest safety standards in both personal and professional grade products. You can have the piece of mind in knowing you are about to purchase a quality product that will provide many years of precise results and trouble free operation.

INNOVATION

Innovation is the way Dahle continues to be an industry leader among cutting and sharpening products. Whether Dahle's developing new products or improving the existing line, we continue to lead the industry in design. Rotary safety shields, self-feeding pencil sharpeners, and mat cutting rolling trimmers are a few of the features that give our products the edge over the competition.

Rolling Trimmers

Rolling Trimmers are the new generation of paper cutters. Designed for safety and accuracy, the cutting blades are encased in a plastic housing that virtually eliminates the chance of personal injury. The rotary action of these trimmers allow the blade to cut in either direction and sharpen itself as it cuts. It's this self sharpening action that produces a clean burr-free cut and guarantees many years of smooth precise cutting. Dahle Rolling Trimmers are available in the following three ranges:

Personal Rolling Trimmers

Dahle's Personal Trimmers are lightweight and portable so they can be conveniently taken anywhere. These trimmers are equipped with a ground self-sharpening blade that cuts in either direction and an automatic paper clamp to hold your work securely in place. With a cutting capacity of up to 7 sheets of

paper at a time, this trimmer is perfect for cutting paper and trimming photographs. Dahle Personal Rolling Trimmers are available in 9", 12" and 18" cutting lengths and are a popular choice among photographers, craft enthusiasts and office professionals.

Professional Rolling Trimmers

Dahle's professional series of rolling trimmers are designed for heavy duty applications where precision is essential. These trimmers are equipped with a ground self-sharpening blade that cuts in either direction. Most models in this series have a cutting capacity of up to 20 sheets of paper at a time and are perfect for cutting paper, trimming photographs, and large format printing. These trimmers can be wall mounted and the two larger sizes have optional floor stands. Dahle Professional Rolling Trimmers are available in 14", 20", 28", 37" and 51" cutting lengths

and are a popular choice among professional photographers, print shops and graphic design agencies.

Premium Rolling Trimmers

Dahle's Premium Rolling Trimmers are designed for heavy duty applications. Whether you are cutting matboard or a single sheet of paper, you can expect to receive the same burr free cut each and every time. This cutting capacity is made possible by a thick walled square aluminum guide rod which provides maximum strength with minimal side movement of the cutting head. Floor stands are available for the two larger sizes or the trimmers can be placed on a table or mounted on the wall. Dahle Premium Rolling Trimmers are available in 14", 20", 26", 36" and 51" cutting lengths and are a popular choice among professional photographers, picture framers, and print and copy shops.

Lever Style Cutters

Lever Style or Guillotine cutters make easy work of cutting 15 sheets or more of paper at a time. Dahle Guillotine blades will not fly up or drop down and use either a finger guard or rotary safety shield to prevent injury. Dahle Lever Style Cutters are the choice of professionals and, depending on your cutting capacity, are available in the following three ranges:

Vantage® Trimmers

Dahle Vantage® Trimmers are lightweight and portable so they can conveniently be taken anywhere. Their metal base and automatic paper clamp prevents the paper from shifting and provides a clean edged cut without fanning. These trimmers have a cutting capacity of up to 15 sheets of paper at a time, and are perfect for cutting paper and trimming photographs. Dahle Vantage® Trimmers are available in 12", 15" and 18" cut-

ting lengths and are a popular choice among photographers, craft enthusiasts and office professionals.

Professional Guillotines

Dahle's Professional Guillotines are designed for heavier applications and are equipped with a ground self-sharpening blade. With a cutting capacity of up to 15 sheets of paper at a time, they are perfect for cutting paper, cardstock and illustration paper. Dahle Professional Guillotines are available in 12", 15", 18" and 24" cutting lengths and are a popular choice among professional photographers, print shops and graphic design agencies.

Premium Guillotines

Dahle's Premium Guillotines are designed for heavy duty applications where precision and safety are essential. These cutters feature

a massive ground blade that is protected by a safety shield. This innovative shield automatically covers the blade throughout the entire cutting process and prevents hands from being in the wrong place. These trimmers will cut matboard and up to 35 sheets of paper with ease and precision. Dahle Premium Guillotines are available in 14", 15", 21" and 27" cutting lengths and are a popular choice among picture framers, print shop and copy centers.

Premium Guillotine With Laser

This Premium Guillotine has an illuminated laser site to show exactly where the cut will be made. It's ability to cut up to 40 sheets of paper at a time is made possible by a state of the art ratcheting paper clamp that securely holds the paper in place and prevents it from fanning.

- Rotary safety guard covers blade throughout the entire cutting process

Item	Cut Length	Capacity	Dimensions
564	14 1/2"	40 Sheets	17 1/4" x 10 1/2"

Specialty Cutting Tools

Not all projects can be cut on standard size trimmers. For these large format applications, Dahle has created a line of Specialty Cutting Tools. These industrial sized cutters are designed to cut large amounts of paper with your safety in mind. Each cutter has built in features that will make your cutting task a safe and pleasurable experience. Dahle Specialty Cutting Tools are manufactured in Germany and can be found in art departments, custom frame shops, and print & copy centers.

Workshop Guillotines

Designed for large format applications, these trimmers sit on top of permanent metal stands and offer a cutting length of 32" and 43". A self sharpening ground steel blade makes cutting matboard, foamcore and up to 30 sheets of paper easy. The adjustable hand crank and lockable T-square ensure you re-

ceive precise results each and every time. For safety these cutters provide a lockable place to secure your blade and prevent unauthorized use. An acrylic safety shield separates your hands from the cutting edge to prevent the chance of an injury. A fold up cut-off shelf provides a place for your waste.

Special Purpose Cutters

With similar design and function to the Workshop Guillotines, Dahle's Special Purpose Cutters are table mounted and made of a durable laminated wood base. These cutters feature a metal fan guard, manual paper clamp, and a scale bar that allows for mounting the lockable T-square on the top or bottom. Special Purpose Cutters are available in 30", 36" and 42" cutting lengths and make easy cutting of matboard, foamcore and up to 40 sheets of paper at a time.

Stack Cutters

Dahle Stack Cutters are manually operated but make ease of cutting up to 700 sheets of paper at a time. Acrylic safety shields can be found on either side of the blade and will not allow the blade to move while they are in the up position. Once the safety shield is in place, you have the ability to cut cleanly through 200, 500 or 700 sheets of paper with very little effort. This clean burr free cut through such a large stack of paper is made possible through a ground Solingen Steel blade and a paper clamp that places even pressure across the entire cutting surface. A self-locking spindle driven backstop allows for minute adjustments to your cutting measurements. These cutters can be mounted on any secure table surface or on the optional floor stands. They are available in 17" and 18" cutting lengths.

Scissors & Shears

Dahle scissors and shears are designed to accommodate the needs and comfort of both personal and professional use. Our handles are form fitting to gently fit around your fingers and reduce fatigue during extended use. With a wide range of sizes and cutting capabilities, Dahle scissors and shears are guaranteed to produce a clean cut each and every time.

Vantage® Scissors

These value priced scissors have handles made of a durable plastic and are contoured to fit comfortably around your fingers. The blades are made of ground stainless steel and cut cleanly through multiple sheets of paper. Available in 5", 6" and 8" sizes, they are perfect for school, office, and to keep in every room in the house.

Vantage® Comfort Grip Shears

Sore tired fingers are a thing of the past with our line of Comfort Grip Shears. These ergonomically correct shears provide a soothing surface for your fingers and allow for continued comfort for as long as you cut. The screw fastened blades have a double ground edge which allows the user to cut through thicker material and cut all the way to the tip for fine trimming. Comfort Grip Shears can cut easily through paper, fabric and card-stock and are available in 5" 6" and 8" sizes.

Professional Paper Scissors

These professional grade scissors are machine ground from Solingen steel and hardened to 56 Rockwell. This is the optimal hardness for maintaining a sharp edge. Screw fastened blades can be easily tightened to your personal preference. Available in 4", 6", 8" and 10" sizes, this professional line of scissors is

perfect for years of continual daily usage of trimming paper.

Super Shears

These professional grade shears can handle the toughest material as well as the most delicate fabric. Also hardened to 56 Rockwell, Dahle Super Shears are German made with double ground Solingen Steel cutting blades that cut all the way to the tip for fine trimming. Super Shears are available in 4"-10" sizes. This line also features an 8" All-Around Shear that has an aggressive micro-toothed cutting edge that can be used while cooking, hunting, or anywhere and aggressive shear is needed!

Pencil Sharpeners

When creativity strikes your pencil needs to be ready! With many shapes and sizes to choose from, Dahle offers many solutions to insure that you're never scrambling to sharpen your creative instrument. These professional sharpeners will sharpen graphite pencils as well as standard and oversize colored wax pencils. Dahle offers three lines of sharpeners to include hand held models, lead pointers for drafting leads, and rotary sharpeners that feature Dahle's unique Automatic Cutting System.

Hand Held Sharpeners

From our pocket sized wedge sharpeners to our ergonomically correct "Chubby", these sharpeners feature a steel cutting blade that can easily be replaced. Our canister sharpeners have either a single hole for normal pencils or offer a double hole for oversized artist pencils. Each shavings cup can easily be

removed and emptied. Our round bottomed "Chubby" sharpener fits comfortably in the palm of your hand and is available with a blue, red or yellow top. These sharpeners are fun to use and are a great item for younger artists.

Lead Pointers

Designed to be used on 2mm drafting leads, these sharpeners gently shave the outer edge of the leads and provide a perfectly contoured edge. Each unit features integrated steel milled blades that the pencil rotates around and spins freely once fully sharpened. Dahle Lead Pointers are hand held devices and include a cleaning plug to remove excess lead shavings.

Rotary Sharpeners

It's all about control with Dahle's rotary pencil sharpeners. With the twist of a dial you

can set the degree of sharpness for your pencil. Whether you need a fine tip or a blunt edged point, Dahle's Automatic Cutting System sharpens to your personal preference then spins freely to prevent over sharpening. These sharpeners not only give you the optimal results you desire but they also save lead. Our rotary sharpeners can easily be cleaned to remove any waxy buildup. Dahle Rotary Sharpeners easily accommodate standard graphite and oversized artist pencils. A mounting clamp is included but not necessary for portable sharpening.

Office Products

Dahle Office Products can be found in the offices of professionals throughout the world. These items are made of the highest quality and are designed to improve performance and efficiency at work. Whether you need an object that's just out of reach, or are sending out monthly invoices, Dahle's Office Products will help you get the job done faster and easier. The time saved in productivity will allow you to focus your efforts on more important issues.

Magnets

Dahle magnets are handy items for holding daily reminders or mounting items to a metal surface. These magnets have a high cling value and will stick to any object with a reasonable iron content. Their durable plastic cap features a ridge for easy placement and removable. Each magnetic surface has a coating that prevents scratching on the cling-

ing surface. Dahle magnets are available in a variety of shapes, sizes, and colors.

Roll-A-Step

Reaching for an object can be dangerous without the proper height and stability. Dahle's Roll-A-Step provides enough of both to ensure safety in any work environment. Moveable casters provide easy placement but disappear when the object is stepped on. The thick rubber ring at the base provides even support and prevents movement on any surface. The large upper platform supports up to 300 lbs. and provides 16 1/2" of reach. The Roll-A-Step is made of hardened durable plastic and will withstand immense pressure. This product is perfect for the office, in a classroom, or even at home.

Letter Folders

Increase your productivity on your next

mailing with a Dahle Letter Folder. These durable folders can fold up to 5 sheets of paper at a time and are quiet enough as to not disturb normal office function. These machines fit neatly on any desk and model 10560 will produce a variety of common paper folds. So the next opportunity you have to mail invoices, send out a survey, or mail a business letter, Dahle Letter Folders will save you time and increase the productivity on your task.

Craft & Hobby Tools

Enhancing your design capabilities is what Dahle's Craft and Hobby Tools are all about. The following items will give your project the professional results you are looking for.

Trim Ruler and Card Maker

Memories are meant to be cherished and now there's no easier way to preserve your keepsakes than by using a Dahle Craft Trimmer. Our Trim Ruler and Card Maker come with interchangeable cutting heads that give you the ability to crop photographs, create scrapbooks and make beautiful handmade greeting cards. They are safe, easy to use and portable for just about any application. Additional cutting heads can be purchased to increase your design capabilities.

Personal Trimmer Kit

Creating decorative edge designs are easy with Dahle's Personal Trimmer kit. This

trimmer is available with three decorative cutting heads and is lightweight and portable enough to take anywhere. It has a 12 1/2" cutting length and includes a straight, wavy, deckle, and perforation cutting head. Each blade cuts in either direction and activates an automatic paper clamp to hold your work securely in place. With a cutting capacity of up to 7 sheets of paper at a time, this trimmer is perfect for creating old time photos, invitations, or just showing your creativity!

Vantage® Self Healing Cutting Mats

Protecting your cutting surface is the function of a cutting mat, but there's a lot more to Dahle's Line of Vantage® Self-Healing Mats. These mats are self-healing and constructed using 5 layers of PVC plastics. It's this specialized formation of plastic that allows cuts to just disappear—which greatly prolongs the life of the mat. Each Vantage® mat con-

tains inch and metric measurements on the top surface as well as 1/2" gridlines, making these mats the perfect work surface for cutting, drawing and sewing. They can be used on both sides and are available in blue, black, and the industry's only crystal clear which is virtually transparent.

Safety Edge

Safety is always a concern when using sharp objects so Dahle developed a unique straight edge that keeps fingers and hands protected while making tough cuts. This heavy duty aluminum ruler has inch and metric measurements and an aluminum protective wall to prevent your knife from wandering in your direction. The non skid rubber base prevents shifting on the work surface. Dahle's Safety Edge is available in a variety of sizes and is a perfect companion to our Vantage® self-healing cutting mats.
