

Claridge Solutions Board

Instant Interactivity that Enhances Collaboration

The Claridge Solutions Board helps corporations and educators create, save and share interactive presentations. A durable whiteboard that accommodates handwritten notes and supplies powerful interactive tools, the Claridge Solutions Board enlivens presentations and enhances collaboration. With pre-built partitions for cords and cables, Claridge Solutions Boards provide streamlined design and installation ease. Interactive note capture, annotations and remote meetings are simple and seamless.

Benefits

- Enlivens presentations
- Captures ideas as they happen
- Enhances two-way communication
- Reduces travel costs
- Protects investment - 50 year surface guarantee surpasses competition
- Appeals to diverse learning styles
- GREENGUARD certified boards help achieve clean air in facilities

The iconic eBeam tool palette is intuitive and feature-packed

Highly acclaimed eBeam Interact™ software comes bundled with the boards, providing rich content for presentations. Graphics, photographs and animation that help engage participants can be easily dragged and dropped from the library onto a presentation.

With built-in meeting sharing capabilities, users can share what they're presenting on a Claridge Solutions Board with users who need only to download software. With two Claridge Solutions Boards, presenters thousands of miles apart can work cohesively to present engaging presentations to audiences anywhere, any time.

“Learning styles, interests, and backgrounds differ greatly from one of my students to the next. As a teacher, it’s my goal to level the learning field, and [eBeam technology] allows me to do that.”

Jeff Caswell,
Seventh-Grade Math Teacher
Arlington Middle School
Arlington, Tennessee

When a presentation is complete, users can choose the file format that works best — including jpeg, pdf and Microsoft PowerPoint - in order to share presentations and lessons.

eBeam Capture™, an optional upgrade, supports dry-erase notations by recording every pen stroke made on the board so important ideas are never lost and notes can be shared over the Internet in real time, sent via email, or edited at a later date.

The Claridge Solutions Board is solid steel, with a fusion bonded porcelain surface that provides a combination writing and projection surface that’s scratch and stain-resistant. Low-gloss, colorfast and magnetic, the porcelain surface is guaranteed for the life of the building. Claridge’s LCS-II porcelain surface has been GREENGUARD certified.

A rock-solid surface. Cutting-edge interactive tools. Free meeting sharing. Intuitive features. Claridge Solutions Boards are changing the way information is shared.
Transform your office or classroom today with the Claridge Solutions Board.
