

## LAMINATION

**GBC-The Leading Manufacturer of Lamination Film and Equipment**  
 Why laminate? • Preserves and protects classroom materials • Makes classroom projects special and makes special things last • Keeps teaching aids fresh from year to year • Helps students stay focused with effective visuals • Create positive experiences for educators with GBC laminating film and equipment in the classroom

*The only heat roller laminator for the school market*

### The GBC Film Advantage:

**Double-boxed with two rolls per inner box**

- Easier to handle film.
- Reduces core crush.

**Rolls are wrapped in a polybag**

- Film becomes statically charged when cut to individual rolls from the large-production mother roll. Wrapping film rolls in polybags eliminates dirt and dust from clinging to the rolls.
- Protected film keeps the laminator clean and undamaged. It helps keep moisture from the film rolls, reducing core swell which can make it difficult to insert the roll on the laminator rods.

**Taped at both ends of the roll**

- Prevents torn or ragged lead edges, facilitating easy loading.

**End-of-roll warning sticker**

- Alerts user to end of roll so film does not run out mid-project.

**Threading card**

- Rigid 8" x 12" 110-point card included in each box.
- Facilitates film loading, reduces wrap-ups.

**Manufactured on state of the art extrusion equipment**

- Exceptional quality product.
- Crystal clear laminating results.
- Available within 3-5 day delivery.

**Made in the USA**

### HEATSEAL® ULTIMA® 65 LAMINATOR – #1 LAMINATOR FOR THE CLASSROOM

- Uses the latest technology via an infrared sensor that keeps the heated rollers at a consistent temperature throughout the entire lamination process
- Motorized heat rollers apply heat and pressure simultaneously for consistent, wrinkle-free lamination.
- Lamination is crystal clear and completely sealed each time
- Protective shield and built-in trimmer
- Simple key pad operation
- Runs multiple film thicknesses: 1.5 mil and 3 mil
- Automatic shut off for added safety
- Laminates 12", 18", 25", and 27" wide

3126061	27" x 500' Clear	1"	1.5 mil	\$ 45.88

*Please consult GBC sales when considering a laminator purchase.*

## Full-Color Digital Output

Designed to laminate, encapsulate and mount prints from color printers/copiers. The Catena Series offers the perfect finish for your full-color digital output.

### CATENA 105 LAMINATOR

Versatile 40" freestanding lamination, encapsulation and mounting of digital inkjet output using thermal films or pressure sensitive (PSA) films.

- Infrared heat detection provides instant reaction to heat changes on the silicone rollers
- Mounting to 3/16" thick
- Rewind to accommodate PSA release liner
- Silicone heat rollers for quality seal without scratching
- Speed: 1.5 fpm - 5 fpm (45.7cm - 152cm)
- Max. roll OD 5"
- UL, CE, CSA Listed

Product	Description	List Price
1715850	Catena 105 Laminator	\$ 7,495.00

### CATENA 65 LAMINATOR

Versatile 25" tabletop lamination, encapsulation and mounting of digital output using thermal films to 10 mil or pressure sensitive (PSA) films.

- Infrared heat detection provides instant reaction to heat changes on the silicone rollers
- Mounting to 3/16" thick
- Rewind to accommodate PSA release liner
- Silicone heat rollers for quality seal without scratching
- Speed: 1.5 fpm-5 fpm (45.7cm-152cm)
- Max. roll OD 5"

# LAMINATION

Designed both for the entry level user and the most knowledgeable, the Spartan laminator produces professional results every time. Operator safe and user friendly, the Spartan is an easy-to-use, affordable mounting and laminating system used on printed output from color printers/copiers.

## GBC® SPARTAN LAMINATOR

The Spartan laminator is the perfect finish to the printed image. It will laminate, mount or both in a single pass. It is designed for running individual or multiple copies of posters, prints, training aids, rigid or flexible signage and much more. Simple one button operation makes the Spartan the easiest system to use. Choose from a wide range of pouches, mounting boards or combination pouch board supplies up to 37" x 49".

- Easy-to-use on/off and run/stop operation
- Thickness settings adjust quickly for pouches or boards
- Preset temperature and speeds make operation simple and automatic
- Designed for laminating and mounting up to 40" wide

## GBC SPARTAN LAMINATOR

### Flexible:

- Designed for laminating and/or mounting.
- Mounting boards and pouch boards are available in white or black, in a variety of sizes.

### Easy to Use:

- Preset temperature and speed settings for simple and automatic operation.
- Standard floor stand provides storage and easy access of finishing supplies.
- Place printed document into pouch or onto board and place into Spartan.

### Quality:

- Heated silicone-coated roller design applies the necessary pressure and heat for superior results.
- Heat is distributed evenly, improving finish quality.
- Spartan supplies are developed for continuous—clean operation and reduced waste.
- Numerous safety features include an over-temperature shut-off to protect the Spartan from excessive heat damage and a heat shield to protect the operator's hands.
