HON

Above: Flagship Desk Towers incorporate a wardrobe and pedestal to provide plenty of storage in a small amount of space. You can add a worksurface, tackboard, task light and paper management accessories to create a comfortable, supportive workstation ideal for clerical, temp and hoteling applications.

Below: All Flagship storage components are available with "A," "R," and "N" pulls; select products also offer a "K" pull.

Store Galore.

The HON Company's premier storage line, Flagship offers a broad range of solutions that complement any setting and support any individual preference. For the corporation, Flagship delivers the ultimate in planning flexibility and long-term value. For the individual user, Flagship provides the greatest degree of adaptability to their work environments. Flagship integrates with all system solutions to maximize your options, now and in the future.

Flagship Desk Tower pedestals have a back panel that conceals wires routed through a worksurface grommet and down to the floor. The back panel attaches to the pedestal magnetically, so users can easily remove it to add or subtract cords and cables.

Flagship Desk Tower ST26723LA: White Aluminum finish with Arch pulls, P-shaped worksurface in Natural Maple laminate top with White Aluminum edge. Flagship Mobile Pedestal: White Aluminum finish with Confetti Gray upholstery seat cushion and Arch pull. Alaris® Seating: Confetti Gray and Titanium finish. Flagship Lateral Files: White Aluminum finish, Natural Maple laminate top and Arch pull.

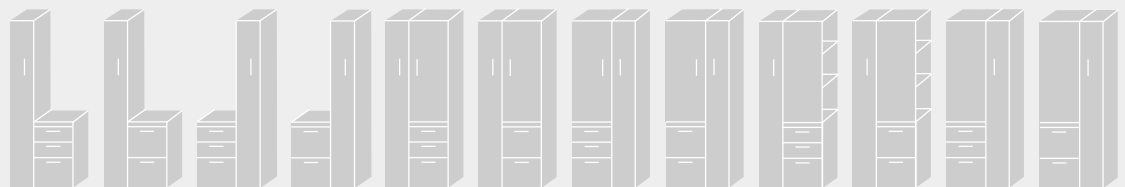

Flagship Pedestals are available in three styles: Hanging, Freestanding and Mobile. Standard Height pedestals integrate with all HON systems and desking solutions; Universal Height pedestals work with many other systems and freestanding desks. Optional flush kick plates mount to pedestal bases to create a flush appearance that coordinates with laterals, file centers and storage towers. 19"-high mobile pedestals may be equipped with an upholstered cushion to provide impromptu seating.

Flagship Towers satisfy individual worker preferences with a variety of configuration options. You can use them in freestanding or panel-wrapped environments, in conjunction with desks or worksurfaces. Wardrobes and pedestals lock independently to allow both personal storage and corporate storage in a single space-efficient unit.

Desk Towers

Personal Storage Towers

End Towers with Bookcases

Flagship storage solutions are more than just hiding places for files, documents and personal effects. They're productivity tools that help make people and organizations more efficient. Flagship supports the many different ways people work while enhancing the flow of information throughout any business.

Flagship Construction is top-of-the-line across the board. All drawers feature high-quality double-wall drawer construction and steel ball-bearing suspension for smooth operation and long life.

Personal Storage Towers and End Towers have interior grommets for routing wires to the floor. Interior shelves adjust in 2" increments and cases are reinforced for strength.

Flagship Personal File Center maximizes storage flexibility by combining lateral, box and file drawers in a single unit. It's designed for placement underneath desks and worksurfaces.

Left to right: Storage Cabinet FSC183664A, Bookcase FSC183664W, 5-High Lateral File 9195A, Lateral File with Open Shelves 9185LSNA and Lateral File with Storage 9185LSA in White Aluminum finish.

Flagship Storage Cabinets, Bookcases and Lateral Files are offered in a tremendous variety of sizes and configurations to meet even the most demanding filing and organization requirements. Users can take advantage of convenient touches like roll-out shelves, adjustable hangrails, magnetic label holders and HON "One Key" interchangeable core removable locks.

**Flagship 2-high Lateral File
9192A**

**Flagship 3-high Lateral File
9193A**

**Flagship 4-high Lateral File
9194A**

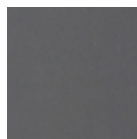

**Flagship 5-high Lateral File
