- ° No oiling of cutting knives, no lubrication. Easy to use without any maintenance operation
- ° Control panel: just press the start button, throw the material into the large entry opening and leave; Kobra Cyclone will automatically shred everything and go into stand-by mode when shredding is completed. A Load Meter measures the actual load on the turbine and on the rotating blades and shows the operator the availability of the shredding capacity at any time during intensive and continuous shredding job
- ° Integrated vacuum system specifically designed to provide the operator with clean and dust free shredding environment
- ° Double insulated shredding chamber and special plastic outer housing enclosure for low noise operation

Kobra Compactor C-500

Optional accessory designed to work with the Cyclone industrial shredder when paper is being shredded. When shredding other materials, you simply remove the compactor and use standard Cyclone disposal bags. Kobra Compactor C-500 compresses and reduces the volume of the shredded paper by 4 to 5 times to minimize the space required for disposal. Easy to install and operate, it works with any Cyclone security level screen.
