QOMO Interactive Whiteboards
QWB 48/56/70WS/200/300/100WS

QOMO Interactive Whiteboards are changing the way teachers and presenters interact with their audiences. Perfect for classrooms, conference rooms, trade shows, or anywhere an interactive display can be used. With QOMO's Interactive Whiteboard, instruction is truly at your fingertips.

QOMO Interactive Whiteboard Features

Touch System: Using advanced IR technology, the QOMO Interactive Whiteboard recognizes the touch of a pen or your finger!

Surface: The surface of the QOMO board is durable and built to withstand even more than everyday use. The surface produces virtually no glare and is very easy to keep clean

Onboard Pen Tray: The onboard pen tray system is conveniently located at the bottom of the board with 3 colored pens and an eraser. The wand can also extend to write at a distance from the board.

Wireless Module (optional): The wireless module allows the board to be wirelessly connected to a computer preventing any cabling hazards.

Erasable Surface (optional): The porcelain steel erasable surface allows you to use the QOMO interactive whiteboard as you would a dry erase board. This gives you the ultimate presentation versatility!

QOMO Interactive Whiteboard Integration

As the only whiteboard designed to interact seamlessly with a complete line of presentation products, the QOMO Interactive Whiteboard has distinct advantages over the competition. QOMO's intuitive Flow! software allows integration with document cameras, writing panels, audience response systems, and wireless tablets.

Mutlple Stand Options

3M Stand

Folding arm for easy movement through tight areas. Easy to raise and lower board.

QOMO Stand

Simple, cost effective solution for any situation.

CONEN Stand

Modular design allows for multiple installation types and configurations.

Flow! Software

- Integration for classrooms, distance learning, and conferencing.
- Vector image format takes less storage space and makes file transferring easier and faster
- Settings for pen type, line width and color variations made to fit different user preferences
- Teacher friendly tools such as spotlight, shades, rulers, geometry palette, timers, and clocks provide a comprehensive package for instructors to engage their audience.
- Export files as PDF, PPT, HTML, and JPEG
- Easy toggle between Flow! software and other applications
- Annotate over any application and automatically capture all your work
- Embed annotations directly into Microsoft Office applications
- Bring document camera images directly into Flow!
- Available in 27 Languages
- Compatible with Window XP/Vista/7 /Linux and Mac OS X Snow Leopard
