QRF500

QClick QRF500 was designed to
encompass the advanced features of the Qclick series while creating a flexible "Ready-to-go" assessment system.

Present
Interact
Write
Respond.

Captivate your students
Measure student understanding
Evaluate and manage student progress

What is QClick?

QOMO HiteVision's QClick is the most powerful Audience Response System.
It can be used in traditional classroom settings, group meetings, or wherever instant feedback is desired.

The QRF 500 system lets you engage participants in virtually any situation. QClick software integrates with Microsoft PowerPoint, making it both easy to learn and fun to use. The QRF 500 is equipped with full alpha-numeric keypads and LCD screens. With its PowerPoint integration, real-time feedback can be electronically collected at the simple click of a button. This feature eliminates having to manually grade tests and quizzes and allows for a wide variety of reporting features to track the progress of students. The built-in mouse control and teacher remote gives you the freedom of not being tied to the computer. Classrooms are enriched as the QRF 500 encourages interaction and participation from every singe audience member – leaving no one behind.
