Introduction to the QRF500 audience response system.

1. Remotes and Dongle

Load two “AAA” batteries into the **Student** (F1-1a) and two ‘AA’ batteries into the **Instructor** (F1-1b) remotes. Turn on the **Power** at the bottom/on the side of the remotes.

2. Start the Software

- Install QClick software from the CD.
- Double-click the  icon on the desktop to launch QClick software.
- Plug in the USB dongle (F1-1c), which should be automatically recognized by QClick and go into the login dialog.
- Enter the default username and password, both are “qomo”.

F2

Note: If you click Cancel, QClick software will be in Read-only Mode.

F3.1

- The QClick toolbar will appear and shows “**QRF500 Connected.**” If the toolbar shows “**QRF500 No Host,**” try to re-plug the USB dongle.

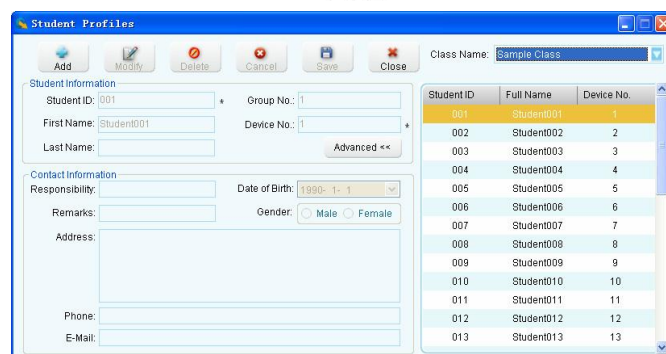

3. Setup a Class

- Click Class icon (F3.1-3a) under Quiz Genius tab. Click Edit button (F3.2-3c) next to the Class Name field. Select Add tab and enter your class name. Click Add button (F3.2-3d) and the Student Settings window will pop up.
- In the Student Settings window select ‘Add New Students’, Enter Student ID, Name, Device No., and any additional information in Student Profiles window. Click Save to add a student into the database. Click Close to complete the settings.
- Click OK button in Class Settings window. Class icon (F3.1-3a) will turn to green when the class is loaded.

F3.2

Note: If the icon is not green, it means the class is not loaded properly.

F3.3

4. Import a Class

- Select a desired class from Class Name drop down list in Class Settings window; or set up a new class.
- Select the **Import** option (F4.1-4a); click OK.
- Find your excel file with your class list and click Open.
- From the drop down menus above the mock excel sheet, select the correct title for your imported columns.
- Click on the **Import** (F4.2-4b) button; a window will pop up when the import is successful; click OK.

Note: The class you import from excel must have four columns of set information filled out: the First Name, Last Name, Student ID, and Device No.

ID	Full Name	Group No.
001	Student001	1
002	Student002	1
003	Student003	1
004	Student004	1
005	Student005	1
006	Student006	1
007	Student007	1
008	Student008	1
009	Student009	2
010	Student010	2
011	Student011	2
012	Student012	2
013	Student013	2
014	Student014	2
015	Student015	2
016	Student016	2
017	Student017	3
018	Student018	3
019	Student019	3
020	Student020	3
021	Student021	3

F4.1

Device No.	Student ID	First Name	Last Name	Group No.	Birth Date	Response
1	1	First Name	Last Name			
2	2	First Name	Last Name			
3	3	First Name	Last Name			
4	4	First Name	Last Name			
5	5	First Name	Last Name			
6	6	First Name	Last Name			
7	7	First Name	Last Name			
8	8	First Name	Last Name

6. Student Login

The student remote will automatically login to the class (F6-6a), and the screen will display the current question No. once a new question is started (F6-6b).

F6

7. Instructor Login

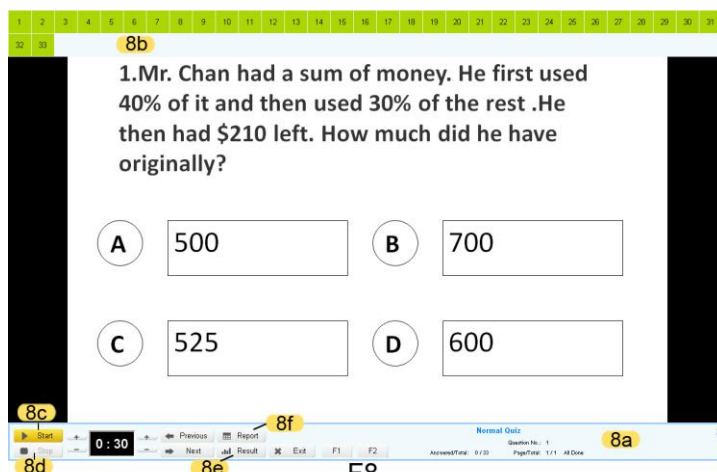

From the home screen (F7-7a), click the button to enter the menu screen. Press (F7-7b.) 2. Login. Press the button to select OK. When your (F7-7c.) Class appears on the screen, press the top left function key to select **OK** then your exam details will appear on the remote screen (F7-7d.).

F7

8. Run a Quiz

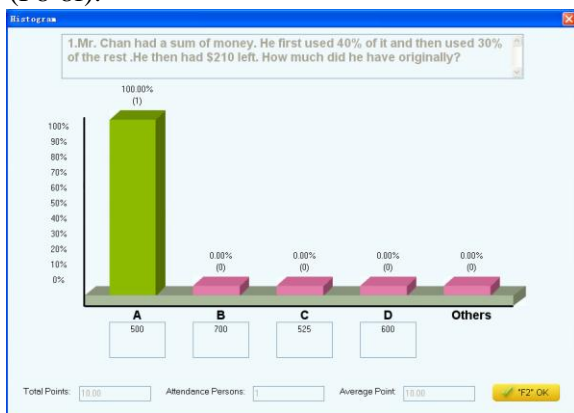

- On QClick software Toolbar, press Load to select a PowerPoint file to run as a quiz.
- The Load icon (F3.1-3b) must be green to run an exam.
- A (F8-8a) menu will appear along the bottom of the screen from which you can operate your exam. At the top of the screen (F8-8b) a list of student registration numbers will appear.
- Start any question by clicking **Start**(F8-8c), ending the timer by clicking **Stop**(F8-8d), and go through questions using arrow keys.

F8

9. View Results

During an exam, check the students' results after each question by pressing Result (F8-8e) or Report (F8-8f).
