

The image shows a Samsung SDP-6500 digital presenter. It features a large, flat, dark-colored base with a central white rectangular display area. A vertical arm rises from the center of the base, supporting a camera unit. The camera unit has a lens and a small display on its side. The base is equipped with various controls, including a large circular dial and several buttons. The Samsung logo is visible on the base. The background is a dark, textured surface.

SDP-6500

HIGH RESOLUTION DIGITAL PRESENTER **User's Manual (RS232C Reference)**

Before attempting to operate this product, please read the instructions carefully.

www.samsungpresenter.com

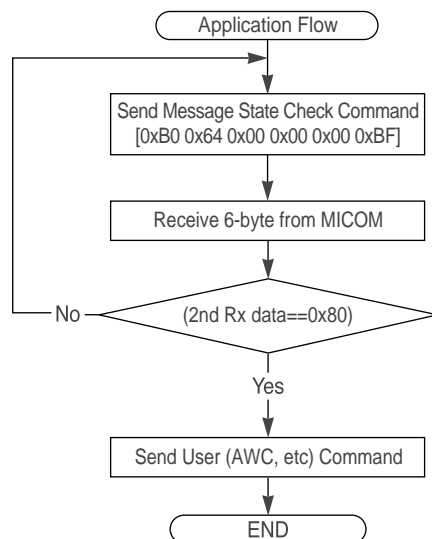

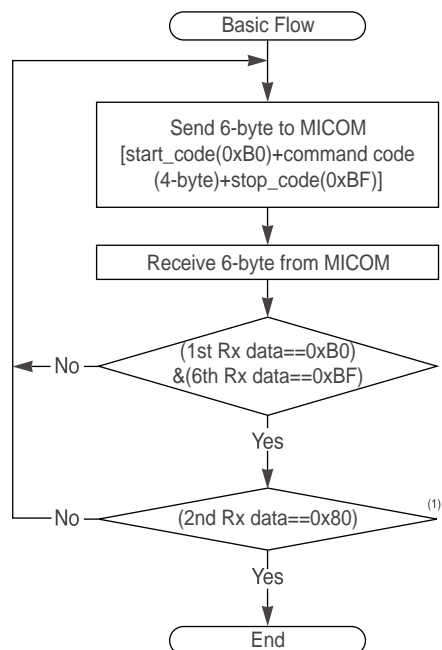

SDP-6500 RS232C PC-side FlowChart

- Baud Rate: 9600bps
- Parity Bit: No Parity
- Stop Bit Length: 1-bit
- Character Length: 8-bit
- Start Code: 0 x B0
- Stop Code: 0 x BF
- Command Code: 4-byte

(Note1 2nd Rx data = 0 x 80)

What the 2nd-Rx-data ("ACK data") is not 0 x 80 means that the system is doing other operation. (Check up page 6)

With the command "Message-Status", you can check up current status of the system and send the user command. (AWC, etc.)

SDP-6500 RS232C Cable Connection
